WWW.BILTRITEINC.COM

Bilt-Rite/Mastex Health - your quality manufacturer for the finest medical products.

Since its inception, Bilt Rite has been manufacturing the finest orthopedic and sports-medicine products available in the industry. These made in the USA products have set the standard for quality, efficacy and comfort.

With each passing year, the product line has grown to encompass more ergonomic applications. With the acquisition of Mastex Health, a highly regarded brand in the marketplace, Bilt Rite has expanded its product offerings even further.

Today, Bilt-Rite/Mastex Health manufactures a complete line of orthopedic, ergonomic, and occupational supports, hot/cold therapy packs, cushions and pillows.

Across the country and abroad, Bilt-Rite/Mastex Health is a leading provider to home medical dealers and distributors, health care professionals, hospitals and nursing homes. Spanish speaking sales reps are also on staff to service territories in Puerto Rico, the Caribbean Basin, Central and South America.

We are confident that you will find the quality products you seek in this comprehensive catalog. Rest assured, the Bilt Rite/Mastex Health professionals are ready to provide any help or technical assistance with any of these products to provide you with a complete medical products solution. Our team is your team.

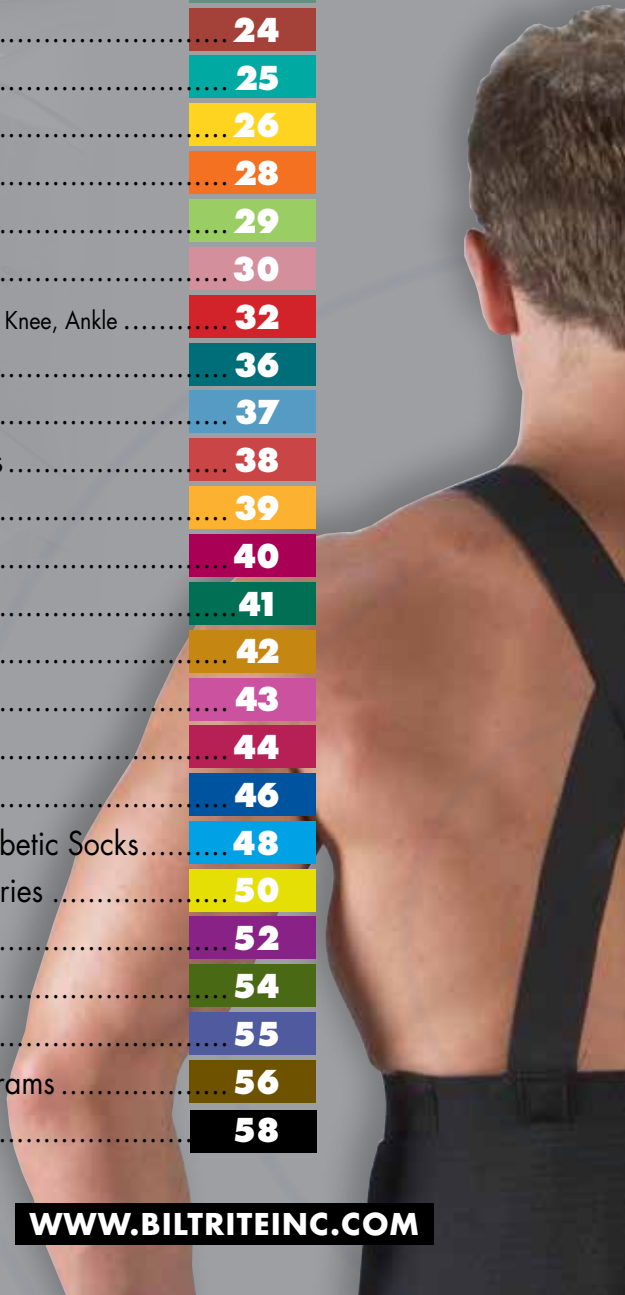

Bilt-Rite/Mastex Health stands ready to provide you with the finest medical products and expertise, now and in the future.

Size	Women's	Men's
SM/MD	6-10	5-9
LG/XL	10.5-15	9.5-14

Dorsal Night Splint (10-98500)

The DORSAL night splint is designed to hold the foot in the neutral position during sleep. It is designed to alleviate the morning pain associated with plantar fasciitis. The dorsal night splint is less weight and heat retention and allows the patient comfort during sleep.

Measure Wrist Cir	
Size	Wrist Cir
X-SM	4.5"-5.5"
SM	5.5"-6.5"
MD	6.5"-7.5"
LG	7.5"-8.5"
XL	Over 8.5"

Lace-up Wrist Support

Left (10-22145), Right (10-22146)

- Ideal for carpal tunnel syndrome, wrist sprains, strains or after cast removal
- Deluxe ultra-suede perforated material with flannel lining for added patient comfort
- Recommended when wrist stabilization is needed
- Two metal dorsal stays on the back of the brace help prevent extension
- New technology provides a tapered strap between the thumb and forefinger to eliminate irritation and allow for better thumb dexterity • 7" length
- This durable LACE-UP WRIST SPLINT is great for all indoor and outdoor activities

BRM Sport Ankle Brace (10-26180)

Key Features:

- Easy to adjust straps without shoe removal
- Easy to lace-up
- Circumferential elastic strap secures laces and side straps in place
- Figure 8 straps locking mechanism
- Inner non slip coating adds support by reducing slippage

Shoulder Immobilizer with Abduction Pillow (10-59220)

Provides post-surgical support. Adjustable shoulder strap includes neck pad to reduce shoulder and neck strain. Waist strap attaches to the pillow using a plastic delrin buckle. Removable pillow provides 25 degrees of abduction. Fits right or left arm. Measurements based upon distance between the end of patient's elbow and center of their shortest finger with an extended hand. 12.5" L x 4.5" W.

Arm Sling with Immobilizing Strap (10-59250)

Arm sling with immobilizing swathe strap, featuring a padded neck strap, thumb loop, and contact closures. Small, medium, large, and x-large.

Universal Shoulder Immobilizer with Swathe-Foam (10-59210)

UNIVERSAL

Immobilizes shoulder following separation, dislocation, strain, and other shoulder injuries.

- Humeral and wrist cuffs can be positioned anywhere on chest band using pressure-sensitive closures
- Swathe is made with a contact closure for accurate fit. It may be used as an arm sling if swathe is not desired
- Fits right or left arm • Hand wash, air dry
- Latex free

Sizing Chart

Swathe Only	54"
-------------	-----

Pneumatic Walker-Tall (10-98410) Pneumatic Walker-Short (10-98400)

- Pneumatic softgood lining contains a medial and lateral aircell system
- Designed to increase stability and minimize pain and edema after post-operative surgery
- Wider foot bed provides comfort and more room for patient dressings

WHEELCHAIR CUSHIONS

BILT-RITE
ORTHOPEDICS & WELLNESS

A Mutual Industries Company

MASTEX
HEALTH

Retail Packaging Available

Gel-eeze® BRAND

Profile:

This cushion works two ways to provide the patient with the ultimate in comfort and support. First, the molded, contoured top provides positioning assistance, distributes the patient's weight more effectively and equalizes pressure. Second, the gel bladder is positioned directly beneath the patient's ischials and coccyx areas, in a cutout area at the base of the molded foam top, for added support. Gel provides optimal weight distribution and prevents bottoming out. Comes standard with stretch knit nonskid cover.

2"x 18" x 16" (F0106D)
3"x 18" x 16" (F0108D)

Wheelchair Cushions

Features:

- Ultimate flotation and support for extended patient care
- Ergonomically designed for optimum weight distribution and prevention of skin breakdown
- Features only quality, UL recognized vinyl with elastomeric properties. This allows the bladder to move and give in concert with the foam and gel, providing patients with a more complete system of pressure ulcer prevention
- Our unique, lightweight gel increases cushion volume and reduces overall pressure for improved mobility
- Provides comfort, pressure relief and patient well being not possible with conventional cushioning
- Foam is fire-retardant; meets Cal. 117

Available Foam Cover Options

Wet Proof Nylon:

Antimicrobial, flame retardant, wet proof cover. Breathable for patient comfort. Zippered cover removes easily. Non Skid Bottom.

Stretch Knit-Nonskid:

Breathable two-way stretch fabric provides low shear environment for added patient protection. Air vapor permeable to help keep patient cool. Zippered cover for easy removal and care. Flame retardant. Non-skid bottom for extra stability. Available in black and navy.

Gel-eeze® BRAND

Standard:

The standard in gel/foam cushions! A gel bladder is positioned between two thick pieces of high-density, high-resiliency foam for superior weight distribution and pressure relief. The bladder rests in a cutout section of the bottom foam piece to keep the cushion level and the gel beneath the patient. The best value in seating. Comes standard with wet proof nylon cover. **Custom sizes available.**

2"x 18" x 16" (F0098)
3"x 18" x 16" (F0100)
4"x 18" x 16" (F0102)

Retail Packaging Available

Foam Back Cushion with Lumbar Support

Improves seating posture while providing back support and comfort • Conforms to provide support to the lumbar region • Sealed liner protects foam core from moisture • The stabilization board secured on back of foam core prevents hammocking in sling-back wheelchairs • Has a non-slip vinyl back to prevent the cushion from sliding • 3 sizes available - 16"x 17", 17"x 18", 18"x 20".

16" x 17" (F0350) (F0351) with stabilization board
17" x 18" (F0360) (F0361) with stabilization board
18" x 20" (F0370) (F0371) with stabilization board

Retail Packaging Available

Wet proof nylon is the standard cover.
Stretch knit available upon request.

MATTRESS OVERLAY CUSHIONS/FOAM OVERLAY

Superior performance makes this the premier choice in gel mattress overlays. We combine our unique gel bladders and high quality foam cushioning for the ultimate in comfort and pressure sore prevention and treatment.

Checkerboard surface conforms to body contours and allows air flow channels to keep patient cool

Center section includes 2 large individual bladders to prevent migration of the gel. When high pressure is exerted the gel does not move from under the patient.

Mattress Overlay

Features:

- Ultra-lightweight gel is twice the volume at half the weight of conventional gels for easier transport and setup of product and reduced shipping cost
- Combines both gel and foam to help prevent tissue trauma and skin maceration
- Features only quality, UL recognized vinyl with elastomeric properties. This allows the bladder to move and give in concert with the foam and gel, providing patients with a more complete system of pressure ulcer prevention
- Checkerboard surface conforms to body contours, and allows air flow channels to keep patient cool
- Reduces pressure to improve prevention and speed healing
- Gel acts as a "heat sink" to draw heat away from patient, contributing to a cooler, healthier surface environment
- Durable, low-shear nylon/polyurethane cover resists both moisture and microbial contamination. Vapor permeable, but water impermeable

Gel-eeze®

THERMALFREEZE PRODUCTS HOT-COLD PACKS

THERMALFREEZE™

These additional products also use the advanced Thixotropic Gel. These packs and the soft gray covers are designed and manufactured to fit very specific parts of the body in a way that no general purpose pack could. The result is the ultimate Hot/Cold, Moist/Dry therapy for these areas-all at a very reasonable cost.

Features:

- 4 color high gloss retail packaging
- Packaged for minimal shelf space
- Professional or institutional packaging on request
- THERMALFREEZE offers a complete, pain management product line

THERMALFREEZE™ products contain Thixotropic Gel. This advanced formula gel can be safely used in both the Microwave and Freezer. Each pack comes with it's own soft gray cover and velcro straps that are designed to comfortably hold the packs on various areas of the body. The result is a complete system that puts Hot/Cold, packs exactly where they are needed for maximum therapeutic benefit.

Retail Packaging Available

Model TF 210 Cervical Wrap

Features:

- Hot/Cold Therapy
- Unique contour design conforms to neck area
- Easy fitting with velcro closures
- Soft gray contemporary covers
- Relief from neck and shoulder pain, muscle soreness, sprains, strains and headaches

AirGel Ankle Brace White (10-22061)

The universal sized AirGel Ankle Brace comes with a gel bladder • Medical grade, perforated-brushed tricot filler allows air to flow within the brace helping to reduce swelling and edema • Fits right or left • The gel bag may be placed in freezer for cold therapy • Height 10.5"

Air Stirrup Brace Length

Type	Size
AirGel	10.5" (27cm)
Airlite	10.5" (27cm)

Airlite Ankle Brace White (10-22062)

Airlite Ankle Brace Black (10-22063)

• The universal sized Airlite ankle brace has a pre-inflated air bladder • Medical grade, perforated-brushed tricot filler allows air to flow within the brace helping to reduce swelling and edema • If additional support is required, the Airlite ankle brace may be band inflated (band is included) • Fits left or right • Height is 10.5"

Key advantages:

Athletic performance

- Resists inversion more than taping
- Air bladder is pre-inflated
- Contoured shells conform closely to ankle
- Universal sizing

Canvas Ankle Brace White (10-26000)

Canvas Ankle Brace Black (10-26002)

Indicated when greater stabilization of ankle joint is needed • Ideal for after cast removal or for moderate sprains • Made with a heavy canvas material that has soft flannel lining • With medial/lateral spring metal stays • Lace-up closure allows for an intimate medial/lateral fit • Fits right or left

HOW TO APPLY: Wear brace over socks. Loosen laces and pull the support up over the foot with the heel in the opening in back. Tighten the laces from bottom to top. The support should fit snug but not so tight to restrict circulation. Retighten for an even and comfortable fit. Wear inside a comfortable or athletic-type shoe.

CARE INSTRUCTIONS: Hand wash in cold water with mild soap. Wrap in a towel to remove excess water (do not twist or wring). Air dry away from heat. Do not tumble dry. Do not bleach. **CAUTION:** Wear as recommended. Always consult a physician when encountering persistent pain, discomfort, inflammation, or swelling.

Measurements: measure side to side underneath the scrotum to determine pouch size

Suspensory Support (10-69090)

Knitted suspensory jock provides the ultimate in testicular support with a four-way stretch pouch designed to support your scrotum while allowing the penis to swing freely. It has a stretch elastic waistband that's adjustable to fit almost any waist size via a metal buckle that allows you to adjust the snugness of the waistband. Each legstrap is also adjustable using a metal buckle so that you can adjust the backward pull of the pouch. Provides firm scrotal support in four different pouch sizes: Small, Medium, Large and Extra-Large. Choose a pouch size based upon the size of your testicles. Made from a heat-resistant blend of 88% polyester and 22% rubber. Proudly made in the U.S.A.

Fits right or left ankle

Motion Walker Support Left **(10-26150)** Right **(10-26151)**

Modified orthotic footplate provides critical foot and arch • Neutral arch position promotes healing of injured ligaments • Three strap adjustment system provides a custom fit

HOW TO APPLY: Wear brace over socks with at least calf-height. For maximum support, wear with an athletic-type or a lace-up shoe. Place the brace inside the shoe. If your shoe has a removable insole or orthotic place the brace under it for additional comfort. Place your foot inside the shoe. Make sure to adjust the pivot points to be in line with your ankle bones. Secure the brace by closing the hook and loop straps, bottom front, posterior and top front. Once straps are fastened, readjust the straps to ensure a proper fit. Fit should be snug but not so tight it pinches or it constricts circulation. Lace up your shoe as normal.

CARE INSTRUCTIONS: Spot clean with a damp cloth. Wrap in a towel to remove excess water (do not twist or wring). Air dry away from heat. Do not tumble dry. Do not bleach.

CAUTION: Wear as recommended. Always consult a physician when encountering persistent pain, discomfort, inflammation, or swelling.

Econo Open-Toe Cast Boot (10-68100)

Your Quality Manufacturer for the Finest "Made in USA" Medical Products

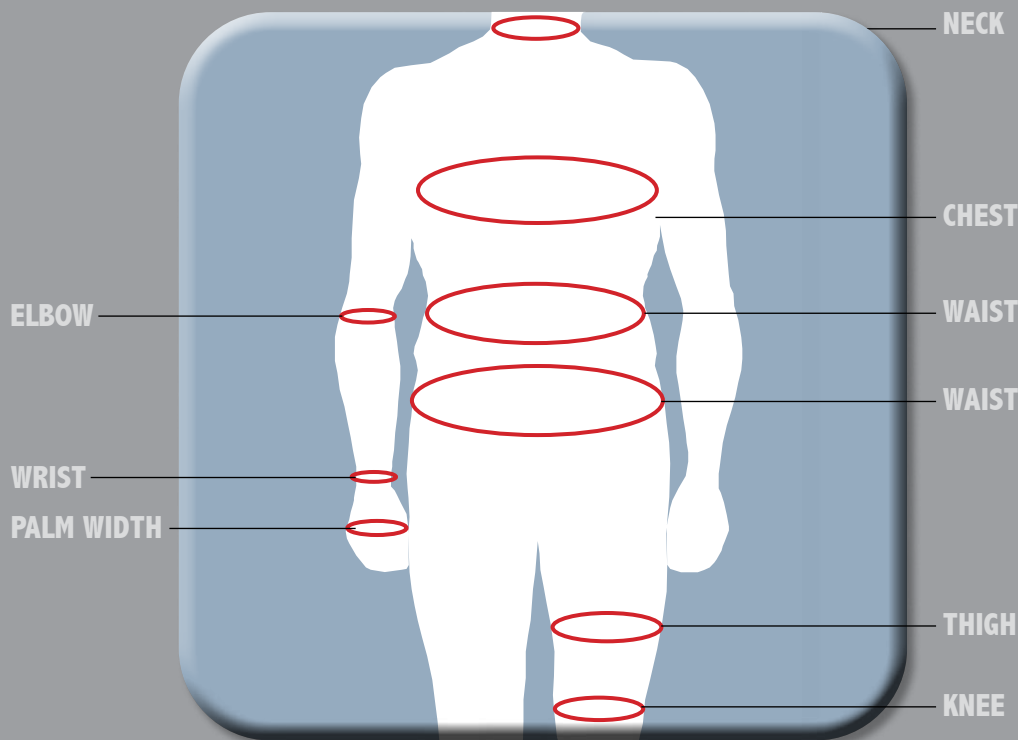

Since its inception, Bilt-Rite has been manufacturing the finest orthopedic and sports-medicine products available in the industry. These made in the USA products have set the standard for quality, efficacy and comfort.

Today, Bilt-Rite/Mastex Health manufactures a complete line of orthopedic, ergonomic, and occupational supports, hot/cold therapy packs, cushions and pillows.

This mailer contains just a sample of our quality product line. Please visit our website at biltriteinc.com to see our comprehensive catalog, featuring all our products with in-depth product descriptions and specifications.

Bilt-Rite/Mastex Health professionals are ready to provide any help or technical assistance with any of these products to provide you with a complete medical products solution.

Taking Proper Measurements

There are a number of important steps to follow to properly fit patients with Bilt-Rite supports. Once the patient's prescription is examined and the correct support is selected, it is important to discreetly loosen or remove any other clothing that might obstruct accurate measuring and fitting. The chart on this page illustrates the body landmarks used to size and fit most Bilt-Rite products. For any problems or more information, please call us at 800.390.9106.

Caution: If during the use of any Bilt-Rite products, any unusual amount of discomfort, pain or any other adverse effect occur, discontinue use immediately and consult the treating physician. No product in this catalog is intended to replace the advice or treatment of a physician. At all times, use as indicated by a physician or healthcare professional. Also, many of our products do contain natural rubber latex which may cause allergic reactions.

Note: A key factor when matching a woman's figure type to a specific garment development is the difference between the hip and waist measurement.
